

# Bhushan Authankar

## PERSONAL DATA

---

DATE OF BIRTH: 25 June 1994  
ADDRESS: Pune  
PHONE: +91 9270414765  
NATIONALITY: INDIAN  
EMAIL: [bhushanauthankar@gmail.com](mailto:bhushanauthankar@gmail.com)  
BLOG: [archbloom.github.io](http://archbloom.github.io)  
TWITTER: [@archbloom](https://twitter.com/archbloom)  
GITHUB: [archbloom](https://github.com/archbloom)  
CODECHEF: [archbloom](https://www.codechef.com/users/archbloom)

## EDUCATION

---

MARCH 2010 Secondary School Certificate (SSC)  
**Vidyamandir High School**, Chandrapur, Maharashtra, India

MAY 2012 Higher Secondary Certificate (HSC)  
**Janata Mahavidyala**, Chandrapur, Maharashtra, India

JULY 2016 Bachelor Of Engineering, Computer science  
**Pune Intitute of Computer Technology**, Pune, Maharashtra, India

## LANGUAGES

---

LANGUAGES: Marathi, Hindi, English

## COMPUTER SKILLS

---

Basic Knowledge: LINUX, Python, Cuda  
Intermediate Knowledge: HTML, mySQL, Git, Github, JAVA, C, CPP, MogoDB, Android, Bash script, Ruby

## WORK EXPERIENCE

---

AUGUST 2015 - APRIL 2016	<p>Intern at Makerville Solutions Pvt. LTD <a href="http://mkrv.in">mkrv.in</a></p> <p>I helped the team building android app. The project was making physical locations interactive by providing digital information for each location. We used beacons for the same reason. The information for each location will be displayed on user app.</p> <p>Techologies used: Golang, Postgres, Android, Hstore, Git, GitHub</p> <p>Repo : Source is hosted on private repository</p>
JULY 2016 - CURRENT	<p>Amura Marketing Technologies <a href="http://amuratech.com">amuratech.com</a></p> <p>Working on Ruby on Rails</p>

## OPEN SOURCE CONTRIBUTION

---

DroidCon PhyWeb	<p>This project consists of an Android app, developed for DroidCon India 2015, held at Bengaluru. It was used to show the use of Eddystone which is an Open Beacon format by Google for broadcasting of data.</p> <p>Technologies: Android, Material Design, Git, GitHub</p> <p>Link to play store app: <a href="#">Droidcon-PhyWeb</a></p> <p>Repo link : <a href="#">DroidconIn-2015</a></p> <p>Blog link : <a href="#">DroidconIn2015</a></p>
Faker gem	<p>Faker is widely used library for generating fake data such as names, addresses, phone numbers, and other data in development environment</p> <p>Technologies: Ruby Repo link : <a href="#">stymphy/faker</a></p>

## PROJECTS

---

E-Student Counter	<p>It was a project for our institute to automate the process at the student counter which includes registration of student to institute and all the student related activities.</p> <p>Technologies : Java, MySQL, MongoDB, Java Swing</p> <p>Repo link : <a href="#">E-students-Counter</a></p>
Text Editor	<p>Simple text editor by using Python.</p> <p>Technologies : Python</p> <p>Repo link : <a href="#">Editor</a></p>
Green Energy	<p>It is a simple app which will give you the list of smart devices in your house. You will also get analysis like how much that device has contributed to your total electric consumption. You can remotely turn ON or OFF the device.</p> <p>Technologies : Android Intellij</p> <p>Repo link : <a href="#">GreenEnergy</a></p> <p>Blog : <a href="#">GreenEnergy</a></p> <p>Video link : <a href="#">YouTube</a></p>
QRCodeRG	<p>Simple QR code reader and generator.</p> <p>Technologies : Python</p> <p>Repo link : <a href="#">QRCodeRG</a></p>
CanaCopa	<p>CanaCopa is a smarter way to interact with the physical world around us. It uses beacon technology for the interaction between physical world and the digital world. It uses <a href="#">Eddystone</a> - protocol specifications for transmitting the data using Bluetooth low energy. It was our final year project and sponsored by <a href="#">Makerville Pvt. Ltd.</a></p> <p>Technologies : Golang, Postgres, Android, Hstore, Git, GitHub</p> <p>Repo link : Source is hosted on private repository</p> <p>Site : <a href="#">canacopa.com</a></p>

## EXTRA CURRICULUM

---

- Event coordinator for coding competition "Pradnya" for 'INC 15'.
- IEEE member.

## HOBBIES

---

- Reading Books - Technical and Non Technical
- Cycling
- Sports - Badminton
- Competitive coding
